

PATRICK STAPPERS ARCHITETTO

WEBSITE #02

WEB_10

Cronologia

2010

Status

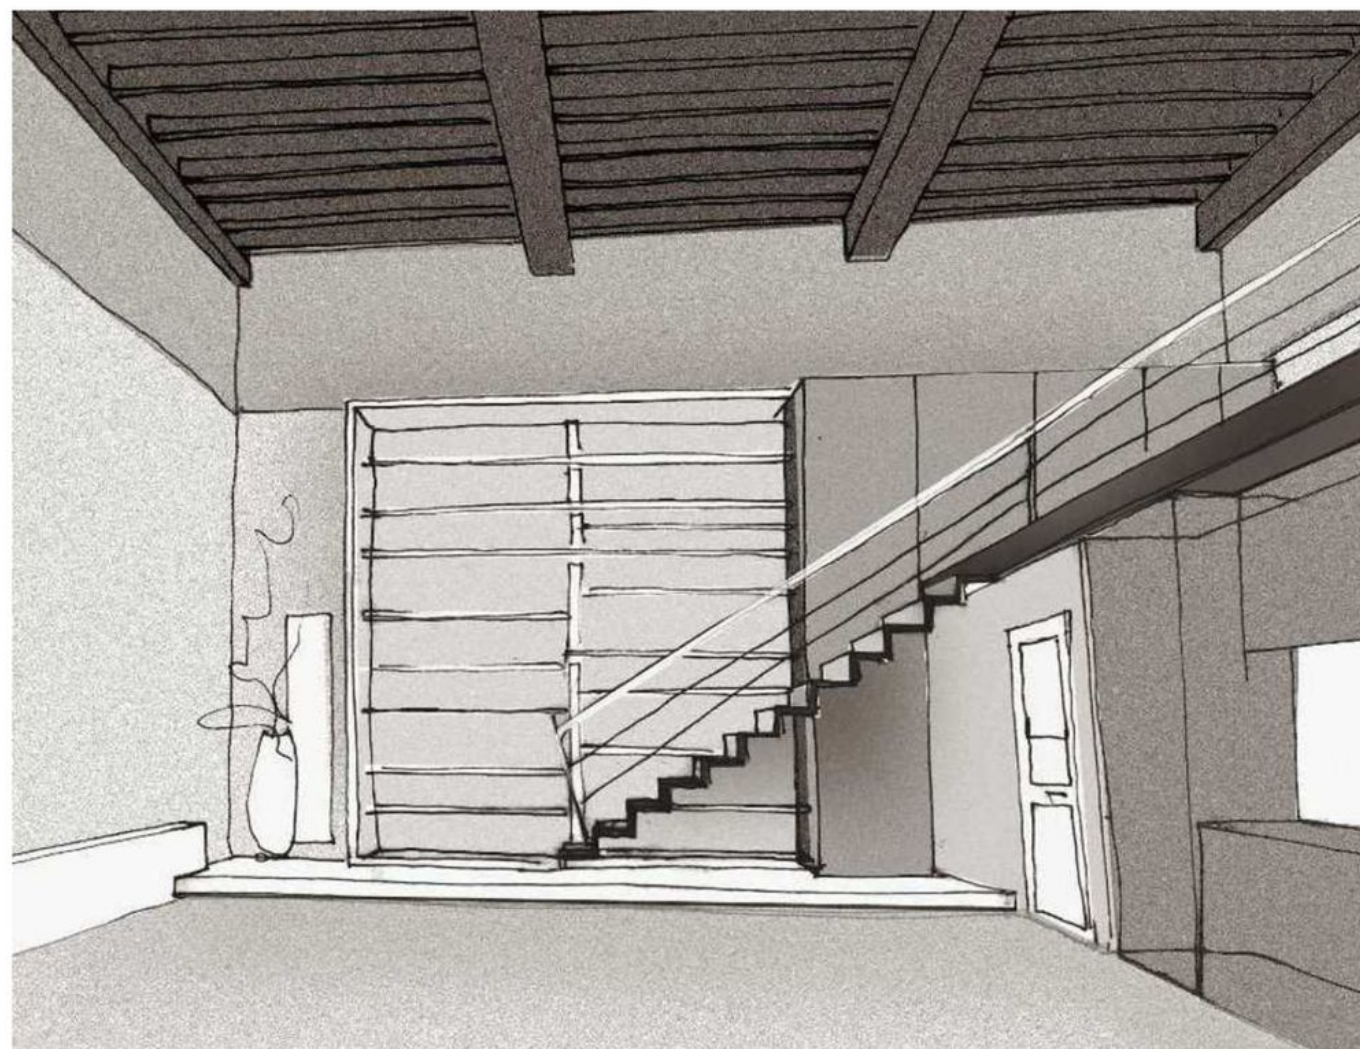

built

The rise of the internet was asking for more than just a static page. The development of a site with photos of the work done. Two aspects to take care of. The sites graphic design and the actual writing in html. The concept was the same as for the first site, although it was starting to get more complex.
