online

The digital world is making great strides and websites must be available on mobile phones.

Many sites offer the possibility to buy ready-made containers, but their rigidity in use is frustrating. So we decided to rewrite the site from scratch, maintaining complete control. A new design completed with graphic effects, studied in detail to make it accessible from the oldest computer to modern mobile phones.

```php
//GET STATIC HTML HEADER CSS ETC.
require $path.'static/php/html_2_header.php';

// ECHO HTML TITLE
echo "<title>".($webpage_title)."</title>";

//                  CALL JAVASCRIPTS                        //

//GET ACCORDION EASE
include $path.'static/php/html_js_accordion_ease_out.php';

//GET ACCORDION TOGGLE
include $path.'static/php/html_js_accordion_toggle.php';

//GET FADE IN
include $path.'static/php/html_js_fade_in.php';

//GET CAT
require $path.'static/php/project_get_cat.php';

?>

</head><body id="top">

<!--fixed header-->
<div class="header" id="header">
    <?php require $path.'static/php/header.php'; ?>
</div>

<?php //JAVASCRIPT - HEADER SCROLL
include $path.'static/php/header_js_scroll.php'; ?>

<div class="header_bkg"> </div>

<!--fixed footer-->
<div class="footer">
    <?php require $path.'static/php/menu.php'; ?>
</div>

<!-- padded container-->
<div class="container_15_80_5">

    <?php //PROJECTSLIDES MYSQL - ROW x ROW ?>
    <div class="row acc">

    <?php require //GET ROWS WITH PROJECT SLIDES
    $path.'static/php/project_row_slides.php'; ?>

    <?php if(($active) == '9'){ echo '
        <div>
            <div class="all"><br><i>' . $language["project_footer"] . '</i></div>
        </div>' ;} ?>

    <?php require //GET COPYRIGHT FOOTER
        $path.'static/php/column_footer.php'; ?>

    </div> <!-- END row card -->

</div> <!-- END container_15_80_5 -->

<?php //CALL COOKIE ACCEPTANCE PROCEDURE
```
